

EMERALD

FEATURES

- Low Smell
- Safer Operator Environment
- Excellent Image Quality
- Wide Colour Gamut
- No Hazardous Air Polluting Substances in the Formulation
- Supported by NUtec Digital's comprehensive third party warranty.

€50

OVERVIEW

The Emerald E50 is a premium, Environment Responsible Product (ERP) ink ideal for wide format printing and is suitable for use in a wide range of print heads. The Emerald E50 ERP offers a greener solution for those who are committed to preserving the environment, as the volatile vapours emitted from this ink formulation are not classified as hazardous, air polluting substances. The Emerald E50 also provides a safer operator environment with more favourable exposure limits.

Offering outstanding press stability for extended periods and excellent image quality, the Emerald E50 ERP ink is compatible with a wide range of media and printheads.

Only the most robust pigment chemistries are used to formulate the Emerald E50 ERP series ink, thereby ensuring the best possible outdoor durability, together with a wide colour gamut.

Provided the inks are used in regular applications, using suitable substrates, the printed images will not fade unduly for up to two years.

PRINT HEAD COMPATIBILITY

Spectra/Fujifilm Dimatix: Polaris PQ-512/15 & 35, SL/SM-128, Starfire SG1024
XAAR: 128/200(360), Proton, Electron
Seiko : Seiko SPT510 (35pl), Seiko SPT510 (15pl)
Konica Minolta: 512/1024(14/42pl)
Ricoh: Gen 4/5

PACKAGING CONFIGURATIONS

5L Bottle. 1L Bottle

SHELF LIFE

18 months

SHIPPING AND STORAGE INFORMATION

Storage & transit temperatures: +5°C to +35°C
Store in a cool, dry area, not directly on the floor and away from direct sunlight

OPERATING SPECIFICATIONS

Temperature: +19°C to +28°C
Relative Humidity: 30% to 80% Non-condensing

Ref.no. NU E12 2015.04. All trademarks recognised. E&OE.
