## **PREMIUM ALTERNATIVE INKS** CATALOGUE

**TRIANGLEINX.COM**

# TRIANGLE®

INX Digital is happy to provide you with our TRIANGLE® Alternative Inks Catalog. Within these pages you will find a complete listing of all TRIANGLE® products, grouped by market segment (Wide Format, Superwide Format, UV Curable, Liquid Laminates).

## A GLOBAL LEADER OF ALTERNATIVE INKS!

This status has not been reached without the help of our global network of dealers and distributors. INX Digital relies on our channel partners to embrace the TRIANGLE® brand and product quality and match them against OEM products daily in the marketplace. It is with the support of our channel partners we continue to make strides forward with new, innovative, quality products that gain market share globally.

Thank you for being an integral part of the success TRIANGLE® has seen and will continue to see. With an unsurpassed Global Dealer Network we will all continue to profit from our partnerships.

# CATALOG INDEX

PRODUCED & EDITED BY  
INX Digital Marketing Department

## CHEMICALLY COMPATIBLE

Changeovers to TRIANGLE® branded products are made easy with our chemically compatible products. We have developed an extensive series of tests to assure that our products are forward compatible (our cartridge being inserted after the OEM) and backward compatible (the OEM ink reloaded over our ink). This allows our users to break free from OEM inks with a reduced risk.

## COLOR COMPATIBLE

Look for our color compatible logo on our products. TRIANGLE® has set a new standard for color compatibility with OEM profiles, continually launching more color compatible inks. When you see our color compatible logo on our product you can feel at ease when changing to a TRIANGLE® product.

## 2-YEAR DURABILITY

Outdoor durability for the purpose of this statement is defined as no appreciable visual deterioration of the printed image when viewed from its intended viewing distance. TRIANGLE®'S premier outdoor durability inks are designed to withstand outdoor exposure for up to two years and are backed by our original Worldwide Outdoor Durability Warranty for TRIANGLE® inks. See warranty for complete details.

# INX DIGITAL COMPANY

## EXPERIENCE AND INNOVATION 100+ YEARS OF HISTORY

With more than a century of history, Sakata INX has always been on the forefront of expanding its involvement in the printing and information industries, as well as taking an active approach to new businesses as an ecological-orientated company. Through its global network of companies, that includes INX International Ink Co., the Sakata group is a key player in manufacturing and developing ink solutions for newspapers, packaging, graphic arts and many other heavy-duty productions and critical applications.

## A GLOBAL PLAYER COMMITTED TO DIGITAL JETTING STUFF IS OUR CORE BUSINESS

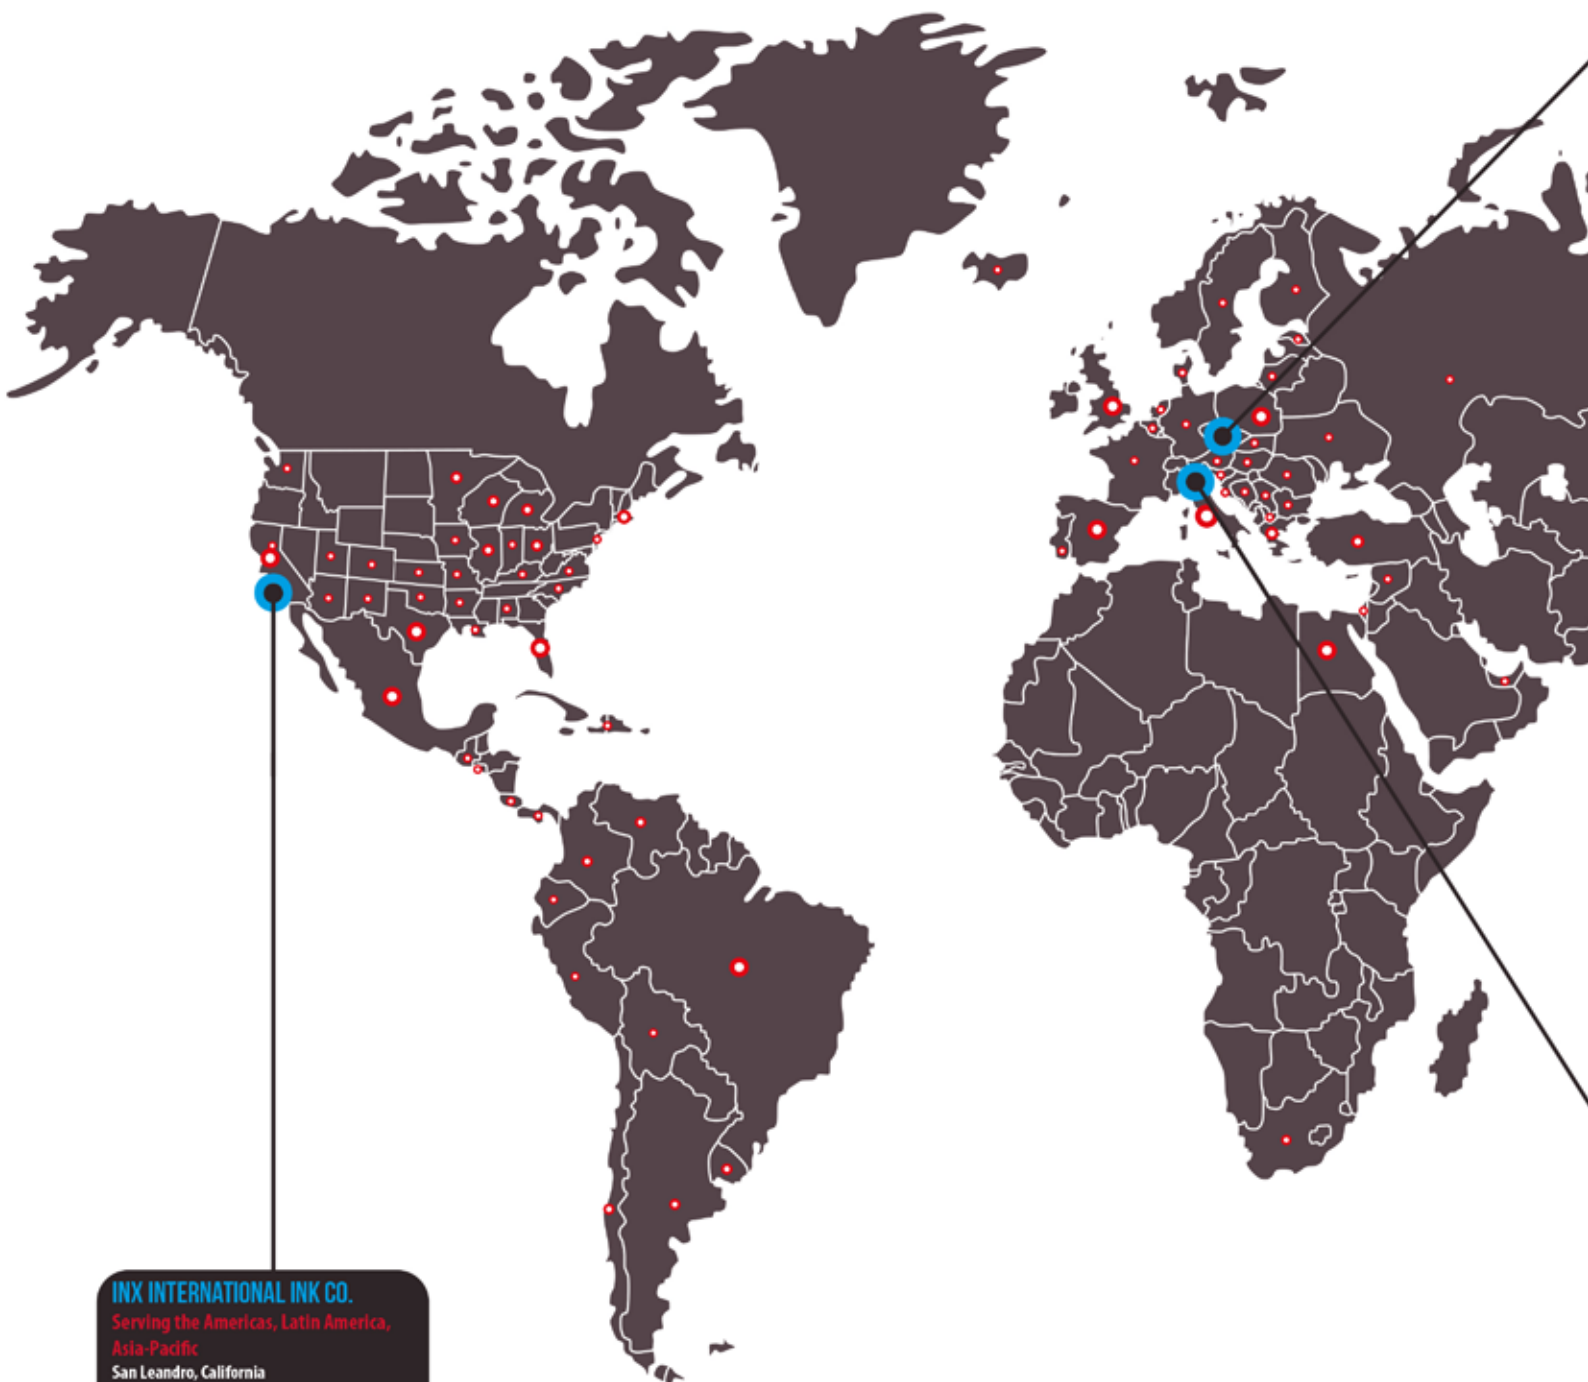

INX Digital is a leading global manufacturer of inkjet inks for wide format, superwide and new generation digital printers, and a supplier of printing parts and related services. As the digital arm of INX International Ink Co., it offers a full palette of digital ink systems, advanced technologies and integrated services including chemistry, hardware and software, engineering design and integration.

# INX DIGITAL IS GREEN

ENVIRONMENTAL PROTECTION IS A PRIORITY FOR THE CONSERVATION OF PRECIOUS NATURAL RESOURCES AND THE CONTINUED HEALTH OF OUR PLANET. INX DIGITAL RECOGNIZES ITS RESPONSIBILITY AS A GLOBAL CITIZEN AND IS CONTINUALLY STRIVING TO REDUCE THE ENVIRONMENTAL IMPACT OF THE WORK WE DO AND THE PRODUCTS WE CREATE.

## INX DIGITAL AND THE GLOBAL ENVIRONMENT

INX Digital takes pride in its history of innovation and thoughtful design. But technological leadership goes beyond what's in our products. How we impact the environment is also important to us, and environmental considerations are an integral part of INX Digital's business practices. From the earliest stages of product design through manufacturing, use and recycling, we take care to keep our activities and our products environmentally sound. Four areas of particular attention are product and packaging design, responsible manufacturing, energy efficiency, and recycling. Each aspect of the design cycle provides significant challenges, yet our efforts in these areas have resulted in some impressive results.

## PRODUCT AND PACKAGING DESIGN

It all begins here. Reducing the environmental impact of our products starts with the product design. Design dictates the quantity of raw materials, type and recyclability of materials, methods for manufacturing and use, and the ease of recycling or disposing.

## SHADES OF GREEN

Shades of Green is a concept that we developed at INX Digital where we look at constant improvement. We believe that one does not suddenly "become Green" but rather that one must constantly strive toward reducing ones impact on the environment. One must constantly become greener.

# GREENINX.COM

REDUCE. REUSE.  
RECYCLE!

# RESEARCH & DEVELOPEMENT

## TRUE SOLVENT

Our TRIANGLE® brand of True solvent inks are formulated as industrial, cost-effective production inks. These inks are vinyl polymer-based with a high-solubility solvent system allowing the ink to penetrate into the substrate creating unparalleled adhesion and durability. They are formulated with commodity solvents with good price structure. We have developed our own specialized pigment dispersion technology. These inks are specially formulated for fast dry times yet with enough open time to not cause surface cure in the nozzle orifice. We are known for our bright yellow, strong cyan, wide-gamut magenta and jet four-color blacks.

## ECO SOLVENT

Our TRIANGLE® brand of Eco solvent inks are formulated with special attention to environmental impact, human health and safety, and regulatory concerns. INX Digital has set the standard on Eco inks. We have internally set criteria with which we grade every Eco ink. These criteria include odor, Hazardous Air Pollutants, reproductive toxicity, non monogenic, VOC, Environmental Fate and OSHA Threshold limits. TRIANGLE® Brand Eco Solvent inks have extremely low odor. We use our internally designed dispersion line, which has a particularly narrow particle size distribution. This consistency of particle shape and size allows consistent drop formation and a reliable meniscus reaction. The custom polymers designed for our Eco line is carefully made and classified to have a narrow molecular weight distribution. The solvent mixture is carefully balanced to optimize polymer solvency, creating a high level of formulation stability.

## MILD SOLVENT

Our TRIANGLE® brand of Mild solvent products are cyclohexanone-free, have reduced odor and yet have a solvency package that still allows for the use of vinyl copolymers that give excellent outdoor durability and are scratch and alcohol resistant. These Mild solvent inks have excellent adhesion characteristics to a wide variety of media and generally have a fast dry rate.

## WATER BASED

Our TRIANGLE® brand of water-based inks are dye or pigment based and designed for use on receptive media with a micro-porous surface that is highly absorbent of the ink. Although dye-based inks result in brighter, more vibrant colors, pigmented inks offer a greater resistance to UV light, translating to greater resistance to fading when exposed to sunlight. Most water-based inkjet inks are not waterproof, making a treatment with a laminate or other protective coating necessary.

## UV CURABLE

Our TRIANGLE® brand of UV Curable products are formulated to meet a variety of machine-specific applications. These industrial, production inks use our internally designed dispersion line that boasts strong, bright, vivid colors. Additionally these pigments have excellent colorfastness (outdoor fade resistance) and a particularly narrow particle size distribution. The small particle size aids in ultimate up time for your printer with consistent drop formation and fewer dropouts caused by air entrapment in the piezo channel. We utilize a variety of monomers as well as integrate unique polymer technology that gives the TRIANGLE® brand of UV Curable products unique performance on a wide variety of media.

# INK TRAIN

## WARRANTY FOR TRIANGLE® INK

### WHAT INX DIGITAL WARRANTS

INX Digital's Ink Train Warranty is granted by INX Digital to the original purchaser of TRIANGLE® inks manufactured by INX Digital and to the end-user if the inks were purchased through an authorized member of TRIANGLE's® Global Dealer Network. INX Digital warrants that their TRIANGLE® inks, when properly used in accordance with the terms and conditions of this Warranty, shall not cause damage to the ink train of the printer of their intended use. "Ink Train" for the purpose of this warranty is defined as the wetted parts of the printer, to include the filters, dampers and print heads.

### GUARANTEE AGAINST PERFORMANCE FAILURE

In the event that the TRIANGLE® inks manufactured by INX Digital fail to perform as guaranteed in this warranty, INX Digital and/or its authorized agent or distributor will replace the damaged wetted parts of the printer (or issue a credit for this component where, at INX Digital's sole discretion, replacement is not reasonably possible). All statements, technical information and recommendations about INX Digital products are based upon tests believed to be reliable but do not constitute a guarantee or warranty. All INX Digital products are sold with the understanding that Purchaser has independently determined the suitability of such products for its purposes. It is expressly agreed and understood that INX Digital's sole obligation and Purchaser's exclusive remedy under this warranty, or under any other warranty, express or implied or otherwise, shall be limited to servicing (replacement or repair) of the affected wetted parts of the printer if the proper claim process is followed and it is found that INX Digital's TRIANGLE® inks are the sole cause of the failure.

### NOTIFICATION OF CLAIM

TRIANGLE Agent or Distributor have to contact TSC department sending an e-mail to IDI TECH SUPPORT GLOBAL (iditechsupportglobal@inxintl.com) within seven (7) calendar days of the suspected failure.

### CONDITIONS TO WARRANTY

This warranty will apply to failures resulting from normal use of TRIANGLE® inks and it will apply only if:

- ▼ All TRIANGLE® inks were directly supplied by INX Digital or any of its authorized Triangle® distributors or dealers.
- ▼ TRIANGLE® inks were stored at all times, prior to their use, following the recommended storage conditions (see individual bottle labels for specific ranges).
- ▼ All TRIANGLE® inks are used within 6 months of delivery or its otherwise noted shelf life.
- ▼ All TRIANGLE® inks are used in accordance with all specifications, recommendations, instructions and manuals provided by INX Digital or any of its authorized TRIANGLE® distributors.
- ▼ TRIANGLE® ink and/or bulk ink delivery system has been installed by an authorized Triangle® trained technician.
- ▼ TRIANGLE® dealer or distributor must have participated in TRIANGLE's® technical training seminars and have complied with all terms of the TRIANGLE® Dealer Agreement
- ▼ Customer has not failed to timely complete any payment due to INX Digital or any authorized TRIANGLE® distributor.
- ▼ TRIANGLE Dealer, Distributor or User are not allowed to change any print head without INX Digital authorization. Print head compensation or replacement is evaluated by INX Digital first and will be granted if the issue is related to TRIANGLE inks. No compensation for any print head will be granted without INX agreement before the replacement.

### WARRANTY LIMITATIONS

Limitation of Product Misuse. This warranty does not cover printers that are modified or damaged through misuse, abuse, accident, vandalism, neglect or mishandling of processed or unprocessed materials by Purchaser or any other person. Before using for any other application, user shall determine the suitability of the product for its intended use and user assumes all risk and liability in connection therewith.

NO EXPRESS WARRANTIES AND NO IMPLIED WARRANTIES, WHETHER OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR USE, OR OTHERWISE, EXCEPT AS SET FORTH ABOVE (WHICH IS MADE EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES) SHALL APPLY TO THE PRODUCTS DESCRIBED HEREIN. INX DIGITAL SPECIFICALLY DISCLAIMS AND EXCLUDES ALL OTHER SUCH WARRANTIES. NO WAIVER, ALTERATION, ADDITION OR MODIFICATION OF THE FOREGOING SHALL BE VALID UNLESS MADE IN WRITING AND SIGNED BY AN AUTHORIZED REPRESENTATIVE OF INX DIGITAL IN NO EVENT SHALL INX DIGITAL BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFIT, LOSS OF USE OR PRODUCTION OR LOSS OF CAPITAL. INX DIGITAL'S LIABILITY ON ANY CLAIM OF ANY KIND SHALL IN NO CASE EXCEED THE AMOUNT EXPRESSLY PROVIDED FOR IN THIS WARRANTY. THIS LIMITATION APPLIES REGARDLESS OF WHETHER THE DAMAGES ARE SOUGHT BASED ON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT LIABILITY IN TORT, OR ANY OTHER LEGAL THEORY.

## INK TRAIN WARRANTY

INX Digital offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown, then INX Digital will provide parts, service or reimbursement costs required to repair damage to the ink train.\*

\*See warranty disclosure statement for details. (Pg.16)

## OUTDOOR DURABILITY WARRANTY

INX Digital backs its two-year products with its Worldwide Ink Durability Warranty. INX Digital's TRIANGLE® Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.\*

\*See specific product durability warranties as some vary.

Ask a sales representative for INX Digital's complete Worldwide Ink Durability Warranty.

## COLOR CENTER

INX Digital provides custom profiles to our customers. Every print shop is unique in its set up just as every printer is slightly different from the other. For this reason we offer to create custom profiles for our customers' various needs.

For additional info: [techsupport.global@INXdigital.com](mailto:techsupport.global@INXdigital.com)

## TECH SUPPORT

Have any questions or issues that need to be resolved?

For additional info: [techsupport.global@INXdigital.com](mailto:techsupport.global@INXdigital.com)

## SPARE PARTS

INX Digital offers some common replacement parts (at a significant savings over the OEM) for many of the printers that we manufacture ink for. For additional info: [techsupport.global@INXdigital.com](mailto:techsupport.global@INXdigital.com)

## COLOR COMPATIBLE

Look for our Color Compatible logo on our wide format products. Our TRIANGLE® brand continues to launch color compatible products. We have set a new standard internally for color compatibility with OEM profiles. When you see this logo on our literature or label you can feel at ease that we have raised the bar on simplicity for changing to a TRIANGLE® product.

## CHEMICALLY COMPATIBLE

We are also looking to make your changeovers to TRIANGLE® brand products easy with chemically compatible products. We have developed a new series of tests to assure that our products are forward compatible (our cartridge being inserted after the OEM) and backward compatible (the OEM ink being reloaded over our ink). This allows our users to feel a reduced risk in trying our inks.

# ELECTRONIC TOOL

## EASYFILL BULK INK SYSTEM MIMAKI JV5

Eco Bulk is our new ink delivery system for wide format inks that takes a more sustainable approach compared to plastic cartridges while maintaining easy of use. With a unique cardboard design, it is comprised of one box instead of five, 440 ml cartridges and houses the ink within a foil bag. Once emptied, the bag is disposed of and replaced. The foil bag can contain up to two liters of ink, double the current industry standard of one liter packaging, which results in less waste. Additionally, a test program showed that more volume allows for greater consistency of the product being delivered through the ink train. Contact your sales representative to see if Eco Bulk fits your workflow!

### ECOBK.JV5.PLUS INCLUDES:

#### ECOBK.JV5

Bulk ink system  
(To be used with Resetter )

#### ECOBK.MIDCART.KIT

The Eco Bulk middle cartridge replacement kit contains 8 replacement middle cartridges for use in the Eco Bulk bulk ink system. To maintain maximum reliability replacement is recommended every 6 months. See page 79 for re-order information.

#### ERJ54

EasyResetV3 is an automatic chip-emulation system

## EASYRESET

EasyReset is an automatic chip-emulation system, that replaces OEM chips. Every time you start the printer it generates a new code that takes the virtual ink level to 100% (440 ml per cartridge). Each time you need to replace a cartridge, following the printer user manual, the virtual ink value has to be restored to 100%. To do that, you need to restart your printer. When the machine is restarted the virtual ink value will be back to 100%.

## EASYFILL BULK INK SYSTEM MIMAKI JV33

Eco Bulk is our new ink delivery system for wide format inks that takes a more sustainable approach compared to plastic cartridges while maintaining easy of use. With a unique cardboard design, it is comprised of one box instead of five 440 ml cartridges and houses the ink within a foil bag. Once emptied, the bag is disposed of and replaced. The foil bag can contain up to two liters of ink, double the current industry standard of one liter packaging which results in less waste. Additionally, a test program showed that more volume allows for greater consistency of the product being delivered through the network. Contact your sales representative to see if Eco Bulk fits your workflow!

### ECOBK.JV33.PLUS INCLUDES:

#### ECOBK.JV33

Bulk ink system  
(To be used with Resetter )

#### ECOBK.MIDCART.KIT

The Eco Bulk middle cartridge replacement kit contains 4 replacement middle cartridges for use in the Eco Bulk bulk ink system. To maintain maximum reliability replacement is recommended every 6 months. See page 79 for re-order information.

#### ERJ334

EasyResetV3 is an automatic chip-emulation system

## EASYRESET

EasyReset is an automatic chip emulation system which overrides the electronic communication from the cartridge chip to the printer and eliminates the printers dependence on OEM chips. At printer startup the EasyReset will automatically communicate to the printer that the ink level is at 100% for each color channel. A regular daily printer power cycle is all that is required to keep your EasyReset functioning at peak performance.

### EASYFILL SETS

#### EFVJ-OR

Horizontal version contains 4 EasyFill tanks and 4 cartridges each with filters and tubing.

#### EFVJ-VR

Vertical version contains 4 EasyFill tanks and 4 cartridges each with filters and tubing.

## EASYRESET

EasyReset is an automatic chip emulation system which overrides the electronic communication from the cartridge chip to the printer and eliminates the printers dependence on OEM chips. At printer startup the EasyReset will automatically communicate to the printer that the ink level is at 100% for each color channel. A regular daily printer power cycle is all that is required to keep your EasyReset functioning at peak performance.

Please consult your local TRIANGLE® dealer before upgrading firmware.

## EPSON KIT SYSTEM SURECOLOR

The EPSX06X0.ARC.KIT is a refillable cartridge and resettable chip system for the Epson Surecolor 30600 and 50600 for Western EU, 30610 and 50610 for Eastern EU and Middle East. The system is used to convert Epson Surecolor printers to Triangle ESC inks. The cartridges are filled directly using funnels and ink from 1L bottles. The chips have a 700ml ink credit which is then resettable once consumed (ARC). Refillable cartridges with chips installed are supplied.

# ENVIRONMENTALLY RESPONSIBLE NANO DISPERSED DYE DIGITAL INKS FOR DIRECT-TO-TEXTILE & TRANSFER PRINTING

TRIANGLE® water-based textile inks DT7 are designed for digital printers utilizing piezo print head technology. These inks are intended for direct-to-textile and transfer printing on polyester or mixed synthetic fabrics that contain a minimum of 60% polyester. In the direct-to-textile printing method, images are printed directly onto the fabric and are subsequently put through a process of thermo-fixation\*. In the transfer printing method, images are printed on specialty coated paper for subsequent transfer onto the polyester-based fabrics.

\* For direct-to-textile we recommend pre-treating fabric for improved image quality.

## APPLICATION

DT7 textile inks are designed for optimal performance on flags and banners, sportswear and other garments. These TRIANGLE® inks will perform optimally when printing direct to polyester banners and flags on treated fabrics or transferred to these same materials.

## THERMO-FIXING CONDITIONS

Thermo-fixing can occur by means of a press or a calendar. The temperature and time varies depending on the chemical-physical characteristics of the substrate being printed or onto which the print is being transferred. For transfer printing, DT7 works well with lightweight to heavyweight transfer paper. For an even brighter result we recommend washing the flag or banner prior to installation.

COLOR	TEMPERATURE/HEAT SETTING	UV LIGHT DURABILITY*	WASHING DURABILITY*
Cyan	170°C - 210°C	5/7	4/5

## FORMAT INKJET INK

### INK TRAIN WARRANTY

INX Digital offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown, then INX Digital will provide parts, service or reimbursement costs required to repair damage to the ink train.\*

\*See warranty disclosure statement for details. (Pg.16)

### OUTDOOR DURABILITY WARRANTY

INX Digital backs its two-year products with its Worldwide Ink Durability Warranty. INX Digital's TRIANGLE® Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.\*

\*See specific product durability warranties as some vary.

Ask a sales representative for INX Digital's complete Worldwide Ink Durability Warranty.

### COLOR CENTER

INX Digital provides custom profiles to our customers. Every print shop is unique in its set up just as every printer is slightly different from the other. For this reason we offer to create custom profiles for our customers' various needs.

For additional info: [techsupport.global@INXdigital.com](mailto:techsupport.global@INXdigital.com)

### TECH SUPPORT

Have any questions or issues that need to be resolved?

For additional info: [techsupport.global@INXdigital.com](mailto:techsupport.global@INXdigital.com)

### SPARE PARTS

INX Digital offers some common replacement parts (at a significant savings over the OEM) for many of the printers that we manufacture ink for. For additional info: [techsupport.global@INXdigital.com](mailto:techsupport.global@INXdigital.com)

### COLOR COMPATIBLE

Look for our Color Compatible logo on our wide format products. Our TRIANGLE® brand continues to launch color compatible products. We have set a new standard internally for color compatibility with OEM profiles. When you see this logo on our literature or label you can feel at ease that we have raised the bar on simplicity for changing to a TRIANGLE® product.

### CHEMICALLY COMPATIBLE

We are also looking to make your changeovers to TRIANGLE® brand products easy with chemically compatible products. We have developed a new series of tests to assure that our products are forward compatible (our cartridge being inserted after the OEM) and backward compatible (the OEM ink being reloaded over our ink). This allows our users to feel a reduced risk in trying our inks.

# BEFORE PRINTING

## BEFORE PRINTING - BONDAID 1

SOLVENT-BASED ADHESION PROMOTER FOR UV CURABLE PRINTS ON METAL, GLASS, AND TILE.

- ▼ Designed to improve adhesion on metal, glass, and tile
- ▼ Acts as a general cleanser prior to printing
- ▼ Reduces static electricity on the surface
- ▼ Reduces ink drop deflection
- ▼ Reduces the potential for new particles being attracted to the substrate during printing
- ▼ Always test the results of this product on your specific substrate using your application method prior to using in production

### ORDER CODES

1 x 1lt Bottle. Net quantity 1 liter.

● 1291218-01LT 1 Liter Bottle BondAid 1

## BEFORE PRINTING - BONDAID 2

SOLVENT-BASED ADHESION PROMOTER FOR UV CURABLE PRINTS ON VARIOUS PLASTICS

- ▼ Designed to improve adhesion on plastic sheeting such as acrylic and styrene
- ▼ Acts as a general cleanser prior to printing
- ▼ Reduces static electricity on the surface
- ▼ Reduces ink drop deflection
- ▼ Reduces the potential for new particles being attracted to the substrate during printing
- ▼ Always test the results of this product on your specific substrate using your application method prior to using in production

### ORDER CODES

1 x 1lt Bottle. Net quantity 1 liter.

● 1291219-01LT 1 Liter Bottle BondAid 2

# LIQUID LAMINATES

## WHAT ARE LIQUID LAMINATES?

TRIANGLE® Liquid Laminates are a series of products from INX Digital designed specifically to protect prints from UV light and other environmental effects. These solvent-based and aqueous-based products protect solvent-based or uv curable prints. TRIANGLE® Liquid Laminates are of the highest quality, giving your prints the best protection.

## WHY LIQUID LAMINATES?

TRIANGLE® Laminates protect digitally produced images from abrasion, water, and premature fading while maintaining the flexibility and elasticity of the media; they are weldable. They also “pop” the colors, giving a wet look to the print. While providing these features TRIANGLE® Liquid Laminates also maintain a lower cost per square meter in comparison to hard laminates.

## UV PROTECTION

TRIANGLE® has set new higher standards in quality with their Liquid Laminates: blocking 99% of light by utilizing current state-of-the-art methods in UV protection, UVA (Ultra Violet Absorber), and HALS (Hindered Amine Light Stabilizers). When used in accordance TRIANGLE® inks, your print job’s lifetime will be extended.

## HOW TO APPLY LIQUID LAMINATES

TRIANGLE® Liquid Laminates can be applied using various methods depending on the type of coating and substrate being utilized: automated coaters, brushing, rolling, or spraying are all viable options. To obtain optimal protection, it is recommended to apply the specified required amount of coating to the substrate (specific to product type). Follow the product applications instruction for best results. Always test before use.

# LIQUID LAMINATES

## D320 & D321 CLEARFLEX ME

AQUEOUS-BASED LIQUID LAMINATE FOR TRUCK SIDE, FLEET, AND VEHICLE GRAPHICS

- ▼ Extremely durable
- ▼ Formulated for truck side and fleet graphics
- ▼ Minimizes dirt pickup
- ▼ Minimizes the effect of UV light transmission
- ▼ Minimizes the effect of oxidation, moisture, and temperature
- ▼ High abrasion resistance

### CLEARFLEX ME GLOSS

Available in 1lt, 5lt and 20lt bottle.

# TECHNICAL SERVICE & SUPPORT

**Rapid-response, service-support.** Cross-platform support is a part of the INX Digital package. This includes equipment parts as well as specialists who can service many printer makes and models. With an unsurpassed Global Dealer Network offering full technical training and local technical support to customers, INX Digital redefines “value added.” INX Digital has broken down its main support system into four segments: Field Service, Head Cleaning, Color Management, and Printer Conversions.

## INK CONVERSIONS

On-site technicians are available to perform ink conversions to TRIANGLE® brand ink. This process includes benchmarking the printer prior to the ink conversion and removal of old ink, installation of TRIANGLE® ink and post-conversion proof prints. The ink train preparation will include a filter change and flushing of integral components to optimize installation of TRIANGLE® ink. The conversion may also include light maintenance and mechanical adjustments if needed. The conversion process requires a minimum two-day onsite technical visit by a qualified/authorized TRIANGLE® technician.

Order Codes AMERICAS	Order Codes	Service Description
17050FSDR	18900FSDR	Field service daily rate
17050FSST	18900FSST	Field service straight time (hourly)
17050FOT	18900FOT	Field service overtime
17050FSDT	18900FSDT	Field service double-time
17050TE	18900TE	Travel expenses

## HEAD CLEANING

INX Digital is employing a new, patent-pending cleaning technology, offering an effective solution for solvent and UV curable print heads with obstructed nozzles and restricted flow. This advance in print head cleaning, available for virtually all print head types, translates to major savings for digital print operations. This service is designed for industrial print heads such as: Dimatix® (formerly Spectra®), Xaar® 1001™, Ricoh®, Konica Minolta®, T-tec™, Kyocera®, and Jetrion® GT64™. This service is not suitable for disposable-type print heads such as Xaar® 128/126™ and Epson®. For more information on our print head cleaning services please email: [printheadcleaning@INXdigital.com](mailto:printheadcleaning@INXdigital.com).

Order Codes AMERICAS	Order Codes	Service Description
17050PH	18900PH	Print Head Cleaning TRIANGLE® ink
17050PH-NT	18900PH-NT	Print Head Cleaning non-TRIANGLE® ink
17050PHUV	18900PHUV	Print Head Cleaning UV TRIANGLE® ink
17050PHUV-NT	18900PHUV-NT	Print Head Cleaning UV non-TRIANGLE® ink

## COLOR MANAGEMENT

**More than just ink.** INX Digital continues to strive to meet the demands of the market when formulating our TRIANGLE® inks. In some cases color compatibility is a must whereas in other situations formulas with greater color gamut compared to the OEM's are requested. Application-savvy INX Digital people not only know digital inks, but also the nuances of different equipment-crucial know-how that helps operators achieve color quality and consistency, and get jobs out the door. Our technicians are happy to provide assistance with ICC profile generation, creation of custom color profiles, or even provide a full color-management training program for large printing operations.

Order Codes AMERICAS	Order Codes	Service Description
17050FSDR	18900FSDR	Field service daily rate
17050FSST	18900FSST	Field service straight time (hourly)
17050FOT	18900FOT	Field service overtime
17050FSDT	18900FSDT	Field service double-time

### 3-DAY COLOR MANAGEMENT TRAINING PROGRAM

We offer a three-day training program that is designed to provide digital print customers with the fundamentals required to drive their workflow more efficiently. In this three-day course, customers will receive basic training on printer calibration, color management strategy, and expectation management. Basic program includes:

▼ **2.0-day printer calibration and characterization**

- 2 production machines
- 2 medias each (total of 4)

▼ **0.5-day workflow and color management strategy**

- Color Management in Adobe® Creative Suite®
- Evaluating color on the display
- Understanding Color Management Fundamentals

▼ **0.5-day expectation management**

- Communicating color internally (prepress to production)
- Communicating color to your customers (delivery)
- Communicating color to your customers (sales)

### 2-DAY COLOR MANAGEMENT TRAINING PROGRAM

More complex sites (multiple printer brands and RIPs) might require extra days to offer assistance in locking down the color process, standardization and managing production variables. We offer the following extras beyond the basic program:

▼ **1.0-day printer calibration and characterization**

- 2 production machines

▼ **0.5-day workflow and color management strategy**

- Color Management in Adobe® Creative Suite®

▼ **0.5-day expectation management**

- Communicating color internally (prepress to production)

*\*This program requires a pre-qualification process, including preliminary interview and evaluation of print conditions through basic test files. Requires two weeks advanced notice. Requested travel within two weeks may be subject to a rush charge of \$800.*

Order Codes AMERICAS	Order Codes	Service Description
7768	7768	On-site service
7765	7765	On-site expenses
7796	7796	Phone support (1 year contract)

## FIELD SERVICE

On-site technician performs preventative maintenance or repair service on printers currently installed with TRIANGLE® ink. The technician will evaluate printer's condition and then identify and perform required service. Field service technicians have access to INX Digital's extensive Parts Program, which can be purchased separately.

# MARKETING

**Need marketing collateral or design work?** We can help! The INX Digital Global Marketing Team works together to create ad campaigns, product literature (data sheets and sell sheets), electronic advertisements, email blasts and more to promote our TRIANGLE® brand as well as specific product messages. There are many types of collateral we produce that could easily be put to use within your own company's marketing strategies, whether you keep everything the same or make simple modifications. For more information on ways our team can help yours, please email: [IDImarketing@INXdigital.com](mailto:IDImarketing@INXdigital.com).

## PRINT ADVERTISEMENTS:

Interested in using one of our ads? We are happy to replace our contact information and website address with your own details and provide the artwork electronically.

## ELECTRONIC ADVERTISEMENTS:

Did you like something you saw from us that came through electronically that you want to use? Just ask! We can quickly and easily change the contact information and website address with your own details and provide the artwork electronically.

## PRODUCT LITERATURE:

Need data/sell sheets for an upcoming event or to send out via email to potential customers? Register with [smartINX.com](http://smartINX.com) and get access to all of our TRIANGLE® sell sheets for the entire product line. Need them customized with your company's contact details and logo? No problem, we can help you with that!

## TRADESHOWS:

Are you participating in an upcoming tradeshow that includes TRIANGLE® products as a highlight of your exhibit? We can offer assistance with your planning.

- Booth design
- Banner/Graphic design
- Labeled, empty display bottles
- Tradeshow bags
- Logo pens

## SAMPLE PRINTS:

Need printed samples from a specific printer using TRIANGLE® inks to show prospective clients? We can help you with this. Our marketing group is happy to help coordinate printed samples with our applications lab.
